Pench's dry deciduous forests, dominated by teak and other native flora, create a unique and photogenic backdrop for wildlife viewing. The park is renowned for its thriving tiger population, but it is also home to a wide range of other iconic species. Sightings often include leopards, dholes (Indian wild dogs), gaur (Indian bison), sambar, chital (spotted deer), wild boar, and sloth bears. If we're lucky, we may even encounter rarer inhabitants such as the jungle cat or the elusive small Indian civet.

Pench is also a haven for bird watchers. Among the more striking avian residents are the Malabar pied hornbill, grey-headed fish eagle, Indian pitta, and the impressive king vulture.

With its diverse wildlife, open vistas, and exceptional birdlife, Pench offers a day rich in photographic potential and unforgettable encounters with the wild.

**Fun fact:** Pench's beauty and wilderness famously inspired Rudyard Kipling's *The Jungle Book*. As you journey through its wild heart, it's easy to see why — the sights and sounds feel like a living storybook. These closing drives are often the most meaningful, as we reflect on the incredible encounters and images we've gathered over the past week.

### Day 9 - Departure

Due to the time difference and our eastward travel, we'll be flying *against the clock* — meaning you can expect to arrive home on the very same day, even after a long journey.
